

# 1kVA 600W Line-Interactive UPS with 8 C13 Outlets - AVR, 230V, C14 Inlet, LCD, USB, Tower

## MODEL NUMBER: OMNIVSX1000

Line-interactive UPS provides basic battery backup with automatic voltage regulation for your office computer or home theater setup.

#### Features

**1000VA/600W/230V Battery Backup for PCs, Home Theater or Digital Signage**This 230V UPS with AVR protection provides reliable battery backup and AC power protection against blackouts, brownouts, overvoltages, surges and line noise that can damage valuable electronics or destroy data. The eight-outlet 230V battery backup is ideal protection for your home office, media center or commerce components, including computers, routers, printers, HDTVs, Blu-ray players, game consoles, ATMs, security systems and digital signage equipment.

Allows Time to Back Up Critical Files During a BlackoutBackup support allows you to work through short power failures, and gives you enough time to safely save files and shut down your system in case of a prolonged blackout. Backup time varies according to load, but the line-interactive UPS system should keep an energy-efficient desktop computer with small LCD monitor powered as long as 50 minutes. During normal operation, incoming utility power keeps the replaceable internal battery fully charged, so backup power will always be available.

**Connects Your Equipment to 8 Protected C13 Outlets**All eight C13 outlets provide both battery backup and surge protection for your computer, monitor and other crucial components. Two 1.5-meter C13-to-C14 power cables are included for connecting equipment. A high >95% line mode efficiency rating reduces BTU emissions, energy consumption and, ultimately, your energy costs.

Automatic Voltage Regulation (AVR) Corrects Low- and High-Voltage ConditionsAVR protects your equipment from incremental hardware damage, data loss and performance problems caused by brownouts and overvoltages. The OMNIVSX1000 can correct brownouts as low as 170V and overvoltages as high as 280V back to nominal 230V power continuously, all while keeping the battery fully charged and ready to take over in case of power failure.

**312 Joules Fight Back Against Unexpected Power Surges**A 312-joule surge suppression rating protects connected components from the harmful effects of power surges.

**Combats Electromagnetic Interference That Can Harm Equipment**Various electromagnetic and radio sources found in virtually every home and business can cause disruptive interference on the AC line. Known as EMI (electromagnetic interference) and RFI (radio frequency interference), this line noise is a common cause of performance problems and can lead to incremental hardware damage, data corruption

# Highlights

- Protects equipment against blackouts, brownouts, overvoltages, surges and line noise
- AVR battery backup allows time to save files and safely shut down during blackouts
- 8 C13 outlets provide power to PC, home theater or digital signage equipment
- Easy-to-read LCD touchscreen provides valuable voltage, load and battery data
- High >95% efficiency with low BTU ratings saves power and lowers your energy costs

### Applications

- Protect your PC and other sensitive electronics against power surges, line noise, brownouts, overvoltages and blackouts
- Operate essential equipment during short-term power outages using battery backup power
- Shut down PCs, DVRs, routers and other equipment without data loss during long-term power outages

#### Package Includes

- OMNIVSX1000 1kVA 600W Line-Interactive UPS with 8 Outlets
- USB cable
- (2) C13-to-C14 power cables, 1.5 m
- Owner's manual

and audio/video transmission problems. The OMNIVSX1000 incorporates technology that filters out disruptive line noise so that it won't affect your equipment.

**Easy-to-Read LCD Touchscreen Reports Real-Time UPS and Power Status**The LCD touchscreen offers five screens of UPS and site power information when the OMNIVSX1000 is operating in either online or battery power mode. It displays vital voltage, load and battery data, as well as critical fault status. An audible alarm will sound in case of low battery, excessive load and fault condition.

**HID-Compliant USB Port Allows for Automatic Saves and Shutdowns**This port connects the OMNIVSX1000 to a computer running Tripp Lite's free downloadable PowerAlert® software to enable safe unattended file saves and system shutdown in case of a prolonged power failure. USB cable is included. The UPS works with Windows, Mac and Linux operating systems.

**Tower Form Factor for Easy Placement in Your Workspace or Media Center**The compact ABS housing fits easily on a desktop, shelf or anywhere else convenient to your workstation or home theater. Connect the C14 power inlet to a properly grounded AC wall outlet with a user-supplied power cord with country-specific plug.

# **Specifications**

OVERVIEW		
UPC Code	037332221766	
UPS Type	Line-Interactive	
INPUT		
Rated input current (Maximum Load)	4.3	
Nominal Input Voltage(s) Supported	230V AC	
UPS Input Connection Type	C14 inlet	
Input Circuit Breakers	7A fuse	
Input Phase	Single-Phase	
OUTPUT		
Output Volt Amp Capacity (VA)	1000	
Output Capacity (kVA)	1.0	
Output Watt Capacity (Watts)	600	
Nominal Voltage Details	230V nominal output in battery mode	
Frequency Compatibility	50 / 60 Hz	
Frequency Compatibility Details	Automatic frequency selection	
Output Voltage Regulation (Battery Mode)	±10%	
Hot-Swap PDU options	PDUBHV10 (2U / 8 C13 outlets)	
Output AC Waveform (AC Mode)	Sine wave	
Output AC Waveform (Battery Mode)	PWM sine wave

Shipping Dimensions (hwd / in.)	9.80 x 14.20 x 23.60	
Shipping Weight (kg)	6.99	
UPS Housing Material	ABS	
UPS Power Module Dimensions (hwd, in.)	6.3 x 4.8 x 13.6	
UPS Power Module Weight (kg)	6.49	
UPS Power Module Weight (lbs.)	14.3	
ENVIRONMENTAL		
Operating Temperature Range	+32 to +104 degrees Fahrenheit / 0 to +40 degrees Celsius	
Storage Temperature Range	+5 to +122 degrees Fahrenheit / -15 to +50 degrees Celsius	
Relative Humidity	Up to 90%, non-condensing	
AC Mode BTU / Hr. (Full Load)	62	
AC Mode Efficiency Rating (100% Load)	>95%	
Audible Noise	Less than 40dB front side 1m	
COMMUNICATIONS		
Network Monitoring Port Description	Supports detailed monitoring of UPS and site power conditions	
PowerAlert Software	For local monitoring via the UPS's built-in communication ports, download PowerAlert Local software at https://www.tripplite.com/poweralert	
Communications Cable	USB cabling included	
WatchDog Compatibility	Supports Watchdog application, OS and hard-reboot restart options for remote applications	
Network Management Card Description	Network management not supported	
Communications Interface	USB (HID enabled)	
LINE / BATTERY TRANSFER		
Transfer Time	6 milliseconds	
Low Voltage Transfer to Battery Power (Setpoint)	170V	
High Voltage Transfer to Battery Power (Setpoint)	280V	
FEATURES & SPECIFICATIONS		
Cold Start (Startup in Battery Mode During a Power Failure)	Cold-start operation supported	
High Availability UPS Features	Automatic Voltage Regulation (AVR); Surge/noise protection	
Green Energy-Saving Features	Greater than 95% efficiency - GREEN UPS	

STANDARDS & COMPLIANCE		
UPS Certifications	CE; Tested to EAC (Belarus, Kazakhstan, Russia)
